

LAB PROJECT

MERI
COLLEGE

APPLE LAB

MERI College, Janakpuri,
New Delhi, 110058

Training facility equipped with Apple products for educational purposes. where students learn about Apple technologies, software development, or digital design. It could be a dedicated computer lab equipped with iMac computers for students to use in their coursework. These labs will be use for various purposes, including programming, graphic design, video editing, or other tasks that benefit from Apple's software and hardware.
