Live It | Love It | Style It

# RADIANT RUSTIC

RICH WITH LEGACY

Styling by: Monika Yadav | Mentor: Yogita Ma'am

## ABOUT ME

- A style that is natural, aged, organic, and maybe even a little distressed. Design styles like farmhouse, tuscan, or coastal can also be described as rustic. Rustic is the opposite of modern or contemporary design.

# SHOULD HAVE

- Rustic decor also feels completely **unpretentious** or **stuffy**.
- It's a type of design that is incredibly **approachable** and **relaxed**.
- It should feel **welcoming** and **easy**, with a color palette that's **calming** and **traditional**.
- Natural, neutral colors such as **beiges**, **whites**, **browns**, and **grays** are all key, but opt for the **warmertints**.
- You won't find many splashes of bold paint in a rustic home, so keep it **monochrome** and **muted**.
- Truly inherited by **nature**.
- Something which is **unfinished** or **raw**.
